Field summary for 5

What do you expect for the next edition of the FIRE Grants?

Answer	Count	Percentage
Answer	22	91.67%
No answer	2	8.33%

Responses

For the next edition of the fire grants i adviced to:

1- Create a facebook page and google plus page to communicate about the competition

2- Propose a model of "well wrote project" to applicants

3- Study the possibility to win more than 10 000 USD

4- Help winners to communicate more about their projects, so they can have more visibility an possibility to access to other financements means.

5- Assist the winners during the project implementation and management for a couple of time

Maybe a quicker turn around for applicants to know if their proposals were successful would be helpful.

More links to project implementation build with respective stakeholders in the same diaspora solving challenges with solutions being developed.

Innovation in mobile applications and hand held gadgets.Early child hood innovative empowerment and tapping of those talents in the early stages in life.Innovation in cultural mix up and restoration of the old cultures which will empower our leaders in Africa.

List of funded project

More funds for african projects

A clearer communication of timeline would be appreciated.

To be a winner, and slightly larger grants (about USD 25K)

sensitize youth participate in social development projects in Africa for sector of education, health, sciences and environment.

Availability of mobility funding- where researchers in Africa can travel around Africa to see and observe other related researches in different areas

More ressources to prepare application

Visibility on the grant process

To get funds early so as to align with the project time line. Also to get more funds that may help us to the project thoroughly and in a wide scope so as many people may get benefits of the projects outputs. and lastly to help the project teams to publish their reports so as they may be known more

We would like

1)more Grants categories,

2)to know the kind of opportunities and Business Networking the Programme can lead us to.

To win

Une aide au montage du projet

Increased awareness among African countries so that more people can participate: It would only be noticeable in the number of projects that are submitted at the next edition.

Quick statistics

Survey 73912 'FIRE AFRICA Grant 2014 Survey'

In this second round expect that my project will be able to generate another new center with the contribution that community beneficiaries will be contributing. contributing will help us to sustain this project and to create other centers like this in order to help many people in this area for the identified problem. Our aim is not to generate our proper money. The money that people will be The calculation shown that within 8 months, even though beneficiaries contribute at the rate of 1/3 (Comparison with Cybercafé in the area) for navigation, grouping, publication of information we can reach at least 9561\$ US, as all expenses will be covered by donors for the first 8 months. After the 8 months, the center will just be functioning with beneficiaries' contribution. Our calculation shown that situation is very possible as at least 94 personnes will attend the center per days and each one will contribute at a rate of 0,6 dollars per Hour
Projects in disadvantaged areas. A challenge for universtaires and research labs. Transversal projects
Grants to take funded programs to the next level

This grant is very crucial for young African who are in need of cash for their initiatives/ideas. It will be great if the grant amount could increase a bit more to help young people develop their projects.
